NEWS RELEASE

**DATED: JUNE 26, 2006
FOR IMMEDIATE RELEASE**

Gulfstaff to host grand opening reception

Gulfstaff LLC, the Gulf Coast's newest personnel placement agency, will host its grand opening reception on Thursday, June 29. Leaders and top officials in business, industry, and government have been invited to help celebrate Gulfstaff's official launch. The company seeks to match workers and employers as the Gulf Coast rebuilds following Hurricane Katrina.

The reception will take place from 5:30 to 8 p.m. on Thursday at the company's newly opened headquarters offices at 2434 Pass Road, Suite E, in Biloxi. The business community is invited and attendance confirmations are welcomed by calling (228) 385-8848.

“We see ourselves as filling an integral position in the recovery effort,” said Frank Yacenda, Gulfstaff Director and General Manager. “By matching the best employee with the right position we are helping restore balance and efficiency to the region's economy.”

Despite a persistently high unemployment rate hovering around 15 percent in the hurricane-impacted counties of Harrison, Jackson, and Hancock, many employers continue to search for workers.

Grand Opening – Page Two

Gulfstaff recently held a job fair that generated dozens of applications by hopeful workers from around the region. The task at hand has been to match those applicants with suitable jobs in the region, the company says. Among the leading categories of workers available for placement are those skilled in a wide range of construction-related specialties, assembly work, warehousing, transportation, office and clerical work, management, retail, restaurant, and hospitality fields.

“Our objective is to assist Gulf Coast employers shorten their search for qualified workers,” Yacenda said. “It doesn't make economic or business sense for companies to struggle along on partial staffing when there are good workers available right here, right now.”

Gulfstaff offers employers several flexible plans for bringing workers on board. They range from strictly temporary placements, which may be full- or part-time, that help companies bridge short-term staffing gaps, to permanent placements that offer solutions to long-term staffing needs. A temporary-to-permanent placement plan enables both employer and employee to judge if the fit is good before committing to one another.

“When considering the costs and risks of recruitment, providing Workers' Compensation and other required coverages, and the real administrative costs to hire an employee directly, services of a placement agency such as Gulfstaff compare quite favorably,” Yacenda said.

In addition to employee placement services, Gulfstaff also represents 20 professional employer organizations, or PEOs, nationwide that can provide cost-effective payroll services, pay-as-you-go Workers' Compensation insurance, and benefits packages to employers of all sizes.

Gulfstaff LLC is located at 2434 Pass Road, Suite E, Biloxi, half a block west of the Poppo Ferry Road intersection; telephone (228) 385-8848 or toll-free (877) 385-8848.
